

# SPRINT-I

## SETTING UP APPLICATION ENVIRONMENT

Install IBM Cloud CLI:

Over here after created account in the IBM cloud there are some tutorials in the dashboard. Over there, get started with CLI tutorial will appear using the documentation we'll install the IBM cloud CLI.

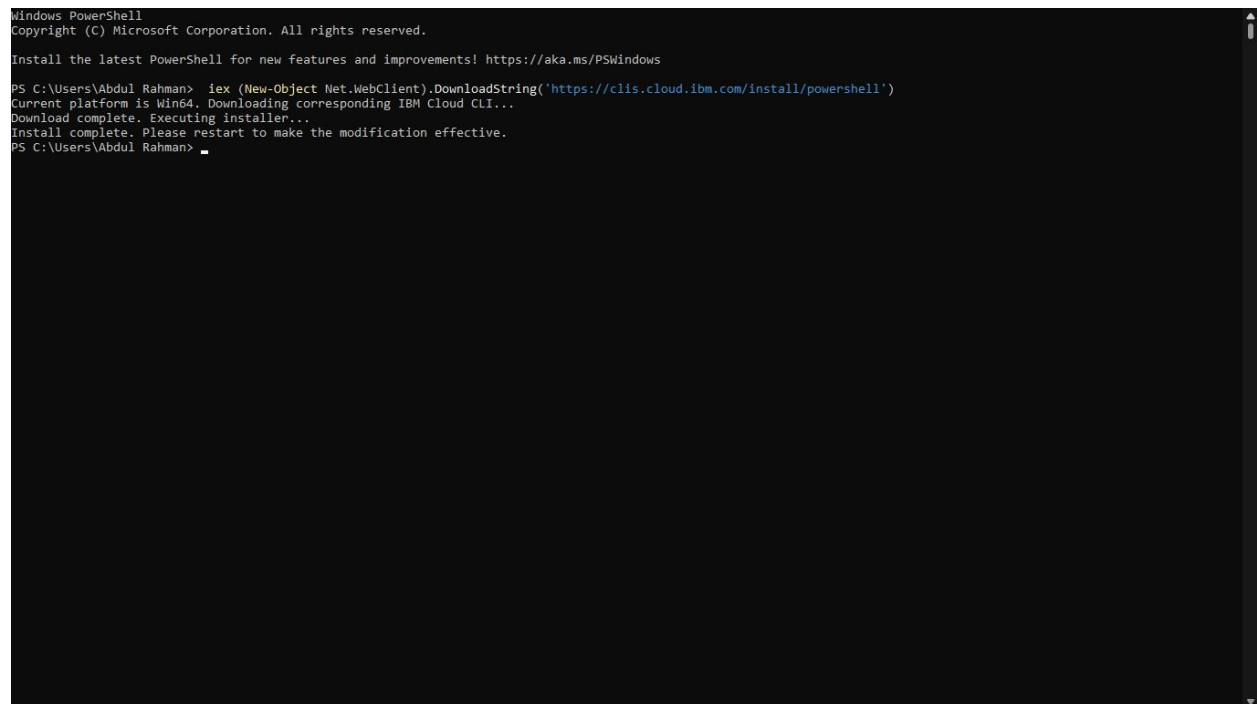

After clicking that tutorial, the instruction documentation page will open using those instructions to install IBM cloud CLI and also install some plugin-tools with the CLI for the work purpose while developing and deploying the Application.

Use the following Command to Install the IBM Cloud CLI:

```
iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
```

After Installed IBM cloud CLI the PowerShell screenshot shown below:

A screenshot of a Windows PowerShell terminal window. The window title is "Windows PowerShell" and it shows the copyright notice for Microsoft Corporation. A message prompts the user to install the latest PowerShell. The user enters the command to download and execute the IBM Cloud CLI installer. The terminal shows the download progress, completion, and execution of the installer, ending with a message to restart the system.

```
